

## Fibre Optic Wall Mount Enclosures

- **Multi Mode and Single Mode**
- **ST, SC, LC**
- **Screwed lid or lockable door access**
- **Up to 48 fibres per enclosure**

These wall mountable fibre enclosures are a cost effective way of terminating fibre where 19" cabinets and panels are not suitable. All boxes come pre loaded with appropriate in-line fibre adapters for both multi mode and single mode fibre. There are two types of box that we offer:

### Wall Mount Breakout Box

Access to the fibre is via a removable screw fastened cover, the fibre in-line adapters are mounted along one edge. Can be mounted on a wall, desk or floor. 20mm knockouts are on each side for cable entry and pre drilled mounting holes are underneath. Suitable for presentation of our pre terminated multi core fibre cables, or spliced assemblies.

- One piece sturdy metal body construction
- Available in ST or SC (Duplex) connector styles, supporting up to 8 fibres
- Includes a 24 way splice bridge, cable entry gland and 4 x self adhesive cable management ties

### Double Lockable Door Wall Box

The plate for the in-line adapters is mounted internally with a separate door (and locks) for each section, thus enabling you to secure these areas against tampering.

- Made from 18 gauge 1.2mm mild steel
- Available in ST or SC (Duplex) connector styles, supporting up to 48 fibres
- Different locks for each door
- Includes cable entry gland and 4 x self adhesive cable management ties
- Standard size 380mm x 325mm x 70mm
