

LC SWITCHABLE UNIBOOT

SENKO LC Duplex Switchable Connector is a unique design that allows the use of round style, 2.0mm or 3.0mm jacketed cable instead of the traditional zipcord duplex cable for a more compact design. The housing of the LC Duplex Switchable Connector can be taken apart in the without the use of any special tooling. This duplex LC allows the polarity to be switched at the time of cable assembly installation without having to re-terminate the connectors.

Features:

- Uniboot connector management
- Switchable Connector to change polarity
- NEW - Latch Lock Ready
- MINI Boot ready
- Right Angle Clip for better panel management
- Flex angle boot ready
- Red / Black color indication for easy Polarity Check
- Available in Multimode (OM3) and Singlemode (OS1), custom made length between 0.3 and 100m.

SWITCH POLARITY

Allows the fibre polarity to be switched at the time of cable assembly installation without having to re-terminate the connectors.

LATCH LOCK

With Add-on key insert, still connects to any conventional adapter but prevents accidental disconnection. Key insert can be removed with no tool.
