

# UNIVERSAL *BROADCAST CONNECTION*

Introducing the Universal Broadcast Connection System, a product specifically aimed at the Broadcast industry

SC SX

E-2000

ST SX

LC DX

## An industry shift toward fiber

The Universal Broadcast Connection system is a round panel mounted design for the global Universal feed-through connection systems used inside the studio or outside broadcast vehicles. The Broadcast industry is moving over to fibre and so the SENKO UBC housing is supplied, pre-installed, with either LC duplex, SC simplex, E-2000 simplex or a ST simplex adapter.

## You may know them as XLR's

There are many XLR products, but SENKO's new Universal Broadcast Connection system is ideally suited for the broadcast industry.

## Safety is a priority

The LC, SC & E-2000 adapters are supplied with Inner Shutter for laser eye protection/safety to the end user. All adapters are supplied with a lanyard to retain the dust cap for each adapter in situ.

**Universal Broadcast Connection System**

**LC DX ADAPTER**

- Premium one piece housing design / no welding point
- Telcordia, ANSI, TIA/ EIA and IEC Compliance

**SC SX ADAPTER**

- Patented one piece housing design prevents housing breakage
